DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 9-10 drawn to an enantiomeric specific method.

Group II, claim(s) 7-8, drawn to a mutated enzyme.

Group III, claim(s) 11-13, drawn to epoxides.

The inventions listed as the Groups do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: there are pure epoxides and the native enzyme is not novel so there is no single inventive concept.
